Soft-grey ceiling tiles for Wellington Seamarket

Wellington Seamarket
Porirua & Lower Hutt, New Zealand
Ecotile™ custom soft-grey ceiling tiles
Family owned since 1947

Ecotile™ ceiling tiles in custom soft-grey.

Wellington Seamarket is an iconic seafood and fish & chip retail group, family owned and established over 78 years ago, with 4 outlets and an online fresh seafood delivery network across the Wellington Region. Ecotile™ ceiling tiles were chosen for the store upgrade program, with Tony and Dion Basile specifying a complementary 'soft-grey' custom colour for the new Porirua and Lower Hutt stores.

1947

WHERE IT BEGAN

It all began in 1947 when the Meo family of Island Bay set up a small fish factory right here on this site. The smell of smoked fish filled the air and became the heartbeat of the neighbourhood.

1979

TONY BASILE JOINS

In 1979, Tony Basile joined the business and soon took over the reins. A second-generation Italian, he grew up in Island Bay, where his father and uncle settled after leaving Sorrento in the 1920s.

Next generation

DION CARRIES ON

Tony and his wife Rosina raised their five kids around Wellington Seamarket, their second home. All five grew up in the business, but Dion stuck around and has now stepped in to carry on the family legacy.

HYGIENE BUILT INTO THE SURFACE

Powder-coated and protected by BioCote®

Ecotile™ ceiling tiles feature BioCote® antimicrobial technology in their powder-coated surface, giving increased protection against bacteria, mould and fungi. The tough, moisture-resistant finish wipes clean easily, helping stores meet high hygiene standards.

BioCote® antimicrobial
Protection against bacteria, mould and fungi.

Easy to wipe clean
Moisture resistant, on a suspended grid that is easy to clean.
